FLEX - SOCIAL DISTANCE

Thanks to the synergy between Design and functionality, Flex created the range of protective solutions for the office. The purpose of these solutions is to guarantee the security and protection of operators and customers. The Tendiflex post and the partitions guarantee safety inside the spaces while maintaining the elegance of the environment.

1 TENDIFLEX® SPORT

Social distance

The original TENDIFLEX® SPORT post with retractable belt represent the ideal solution to handle the environments with intense pedestrian traffic.

The sporty design and the special ultra-resistant and ultra-flat base makes them unbeatable in terms of durability and robustness, while the extendable belt is equipped with a magnetic tape end to fulfill security rules.

The TENDIFLEX® SPORT post has a practical shockproof transparent message holder panel, fixed above the upright and used as a directional support or to communicate information to the customer. This system allows you to have a communication that can be updated in a few seconds, guaranteeing customers effective service indications.

5 SPRAY SIGN HOLDER FOR TENDIFLEX®

Social distance

Flex created a new **SANITIZING SPRAY HOLDER** system to be placed on our **TENDIFLEX SPORT** and **CLASSIC** posts. It is a support provided with a sign holder that can be customized on both sides, the systems are, **SignLine** which allows a quick replacement of the message inside the panel or the custom graphic panel. The product is designed to hold the Sanitizing Spray Flex and is equipped with security Velcro tape. **SPRAY SIGN HOLDER** has a unique design, in perfect **FLEX** style.

6 DISPENSER SIGN HOLDER FOR TENDIFLEX®

Social distance

Ideal to support the sanitary products of your choice, the DISPENSER SIGN HOLDER is equipped with a support adaptable to the TENDIFLEX SPORT and CLASSIC posts. Among the plus, to be underlined is the support shelf with side rails that thanks to its open edges guarantees a quick and incisive cleaning. Thanks to the Velcro safety tape, we can avoid the fall of the sanitizing Spray Flex due to involuntary impacts. The double-sided sign holder is fully customizable thanks to the SignLine message exchange system or you can choose the personalized graphic panel.

1a TENDIFLEX® SPHERE

Social distance

The TENDIFLEX SPHERE post can be customized in many ways, from the customization of the cap to the one of the upper ring of the sphere which make each SPHERE unique.

The personalized rings of the sphere allow you to recall your company colors or the characteristics of your environment, making the product perfectly coordinated and recognizable.

The quick and simple change of the cap of the new TENDIFLEX SPHERE allows in few seconds to give a new look to the product making it perfect for any situation.

Company logos, graphics for special events, images and colors, texts and directional signs are just some of the possible uses.

The magnetic tape end is ideal especially in dangerous situations as it allows a simpler and faster release of the belt, ensuring maximum security.

12 THERMOSCANNER

Social distance

Integrated body measurement systems based on infrared thermal imaging technology take advantage of deep learning algorithms and Artificial Intelligence. They guarantee high performance and high reliability. These systems offer rapid recognition of the person thanks to face reading and combine body temperature data to report any state of alteration. The integrated system can be mounted at the access gates and it works in total autonomy without the presence of operators on site. Automatically records cases of high temperature and counts detection events. Rapid face recognition in the absence of protective masks. Allows the detection of thermal data even in the presence of a mask. It allows data uploading via network for image management and works in the event of a network failure. High temperature measurement accuracy with tolerance of ± 0.3 ° C.

2 PROTECTIVE PARTITION

Social distance

The Flex protective partition is a new product which, placed at the counter, at the cash desks or at the desk of an office or a shop, helps protect workers from direct contacts with the public.

The Flex protective partition is provided by a slot created for the passage of not bulky parcels or documents. It is a solution in transparent methacrylate that is perfectly suitable to the environment in which it is inserted. Its standard dimensions are 85 cm of base and 70 cm of height and has been designed to protect the customer and the operator from any direct contact. The product is equipped with two supporting pedestals that make it stable and resistant.

MATERIAL: TRANSPARENT METHACRYLATE
TOTAL WEIGHT: ~3 Kg

ACCESSORY:
SURFACE SANITIZING SPRAY (not included)
Pocket-sized, alcohol-based, fast-acting
How to use: shake the bottle and spray on the surfaces to be treated. It does not require further cleaning with a cloth.
ALL SANITIZING PRODUCTS ARE SOLD SEPARATELY
